Note: Those marked above with (x) indicates individuals who had no separate home of their own but were living in households in which some other was the head. These includes boarders, laborers, aged parent or parents, orphans, and mothers-in-law. Those individuals who were living alone, are so indicated by the word "alone" following their names.

The Serial or Order Number opposite each name is the order number observed by the Enumerator in the census pages following. As will be observed, many numbers were skipped in placing down the order number.
